📋 Daily Work Progress Report

Name: Mihigo Prince
Position: Frontend Developer
Date: 1st September 2025

📝 Introduction

Today, I was at Nyamata assisting Jane with using the system. Due to PC issues, I was unable to work on coding tasks, but I provided user support and noted down challenges from the field. I plan to resume development tasks once the technical issues are resolved.

⚙️ Key Accomplishments

User Support

- Helped Jane navigate and use the system.

- Addressed some of her challenges and explained system workflows.

Issue Identification

- Noted areas where the user faced difficulties, which will guide improvements.

- Logged challenges that will need to be resolved for smoother usage.

Planning Ahead

- Scheduled tomorrow (by 11:00 AM) to finalize both the PC problem and outstanding issues.

- Prepared to continue with HR module tasks once the environment is stable.

📚 Summary

Although today did not involve coding work due to PC problems, meaningful progress was made by supporting system users in Nyamata and identifying real-world challenges. With the planned resolution tomorrow, development tasks—particularly on the HR side—will continue without interruption
